

Well # 10 30

Well # 20 ~~22~~ 22

A hand-drawn sketch of a complex geometric structure, possibly a crystal or a molecular model, on a grid background. The structure is composed of various lines and shapes, including circles and polygons, and is labeled with 'b' and 'c'.

$$\frac{1}{\sqrt{2}} \times (2\sqrt{2} + 7) = 2 + \frac{7}{\sqrt{2}}$$

$$2.4\sqrt{2}x = 60$$

$$x^2 + x^2 = C$$

$$24 = 2 \times 12$$

$$\sqrt{x}$$
